At Phillips Earthmoving Contractors we pride ourselves on being a highly diverse and all-inclusive company. We are committed to Equal Employment Opportunity (EEO) and provide employment for people from a diverse range of backgrounds. Our company operates out of Tennant Creek in the Northern Territory and was established in 1999 by Jim Phillips.

## **COMPANY OVERVIEW**

---

Phillips Earthmoving Contractors is an Australian family owned and operated company specialising in excavation and earthmoving services. Located in Tennant Creek, our business has been built on a passion for excellence and currently services the greater Barkly Region and outback Queensland with the capability to deliver major contracts Australia wide.

Our company founder, Jim Phillips originally arrived in Tennant Creek on Christmas Day 1989 to inspect a possible job opportunity working at the White Devil Mine. He began his operations in January 1990 with the purchase of an old AACO International Water Truck which he bought from a local contractor. For the next nine years, Jim worked at three mine sites; White Devil, Warrego and Gecko mines in the Tennant Creek area until they commenced their closure strategies in 1999.

Following the closure of the mines Jim purchased a 30T excavator and began providing earthmoving services across the Territory. He was approached by the local Power and Water authorities to excavate the main sewerage line crossing Peko road in Tennant Creek. As a part of this job he procured a tip truck and a loader, in addition to a CAT 140G Grader shortly afterwards.

From our humble origins, Phillips Earthmoving Contractors has continued to grow over the years and today employs 45 staff and operates over 150 in combined heavy equipment, trucks and vehicles. Our services include civil construction, bulk haulage, mine contracting and earthmoving plant hire. We have worked with a number of major client organisations including McConnell Dowell, Department of Infrastructure, Planning and Logistics NT, Statoil and Mine Makers.

## SERVICES

### CIVIL CONSTRUCTION

- › Civil, Mining Bulk Earthworks
- › Open Pits
- › Roads Construction, Stabilizing, Sealing
- › Oil Exploration Pads
- › Tailing Dams
- › Earth Dams
- › Pipe Lines
- › Turkeys Nest
- › Construction Pads
- › Access Roads
- › Land Clearing
- › Civil Works For Exploration
- › Air Strips Construction
- › Works Building Pads
- › Sewerage Ponds
- › Clearing Fence Lines
- › Repairs Of Rail Corridor Formation
- › Demolition

### MINE CONTRACTING

### BULK HAULAGE

### EARTHMOVING PLANT HIRE

## PRODUCTS

### QUARRY MATERIALS

- › Base Course
- › General Fill
- › Aggregate
- › Top Soil

## PLANT AND EQUIPMENT

- › CAT D9N Dozers
- › CAT 140H Graders
- › CAT Loaders – 980H, 966E, IT28, IT24
- › CAT Excavator – 336DL, 325
- › Rollers – Padfoot, Smooth Drum, Multi-tire
- › Water Carts – Semi-tankers, body trucks, moxy
- › Fuel Cart – 18,000L capacity
- › Moxy dump trucks
- › Side tippers
- › Prime Movers
- › Trailers – Drop deck, float, flat tops (3-way pins),
- › Service Trucks & Light Vehicles
- › Lighting Plants
- › Traffic Control – Mobile traffic lights, road signs
- › Pumps

---
